Re: DOMITOR® (4,670,455)  
Docket No. 96E-0194

Stephen G. Kunin  
Deputy Assistant Commissioner for  
Patent Policy and Projects  
U.S. Patent and Trademark Office  
Box Pat. Ext.  
Assistant Commissioner for Patents  
Washington, D.C. 20231

#15

Dear Mr. Kunin:

This is in regard to the application for patent term extension for U.S. Patent No. 4,670,455 filed by ORION-YHTYMA OY under 35 U.S.C. § 156. The animal drug product claimed by the patent is DOMITOR® (medetomidine hydrochloride), New Animal Drug Application (NADA) No. 140-999.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product.

The NADA was approved on March 19, 1996, which makes the submission of the patent term extension application on May 10, 1996, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the Federal Register, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely,

Ronald L. Wilson, Director  
Health Assessment Policy Staff  
Office of Health Affairs
